SUMMARY

Technical Support Specialist with enterprise laptop deployment experience at Deloitte and three years of front-line technology support at MTSU Walker Library. Skilled in Windows 10/11, Microsoft 365, workstation setup, imaging, printer/scanner support, local network troubleshooting, ticketing, documentation, and projector A/V for events. Known for problem solving, reliable handoffs, confidentiality, collaboration, and flexibility when priorities shift. Desire to learn and apply new technologies to improve processes and user experiences.

TECHNICAL SKILLS

- **Operating Systems:** Windows 10/11, macOS, drivers, OS and software deployment
- **Applications:** Microsoft 365, Google Workspace, email setup, desktop apps, file management
- **Hardware & peripherals:** Dell/HP laptops, desktops, printers, scanners, mobile devices
- **Deployment:** bulk laptop imaging, pre-provisioning, build QA, intake/logistics, inventory tracking
- **Networking:** LAN and internet troubleshooting, wireless setup, basic network configuration
- **Support:** help desk ticketing, phone/email/in-person support, documentation, user guides, training
- **A/V support:** projectors, microphones, cameras, presentation and event technology setup
- **Security:** password management, account setup, confidentiality, data protection

PROFESSIONAL EXPERIENCE

IT Support Technician | Deloitte
February 2026 - October 2026

Support enterprise laptop deployment by imaging, provisioning, QA-checking, and preparing workstations for operations teams and stakeholders.

- Image and pre-provision Dell and HP laptops for consistent, deployment-ready builds
- Install end-user software, validate configurations, and QA devices before handoff
- Manage device intake, unboxing, repackaging, shipping coordination, and inventory updates
- Coordinate with a small team to balance workload, share fixes, and meet operational deadlines

Student Technology Assistant (Team Leader) | MTSU Walker Library
January 2022 - January 2025

Served as a first-level contact for staff and patrons, keeping library workstations, peripherals, and presentation systems reliable.

- Provided support by phone, email, and in person, guiding non-technical users through clear resolutions
- Troubleshoot Windows/macOS workstations, desktop apps, Microsoft 365, Google Workspace, printers, and scanners
- Configured user workstations, resolved LAN/wireless issues, and performed updates and basic backups
- Documented issues and resolutions in a ticketing system for follow-up, transparency, and standards
- Partnered with departments on technology needs, staff training, and solutions, escalating complex issues when needed
- Led one-on-one training and supported presentations/events with projector A/V setup and end-user guidance

EDUCATION

B.S in Computer Science & Minor in Entrepreneurship @ Middle Tennessee State University
August 2020 - December 2024

3.6 GPA | Dean's List 4 times

KEY PROJECTS

Bulk Software Installation Automation | Deloitte
Spring 2026

- Built batch and PowerShell scripts to streamline bulk end-user software installation during laptop provisioning
- Launches required applications, dismisses common popups, and includes self-audit checks so technicians can verify installs before packing and shipping
- Collaborated with deployment teammates to refine features and edge cases so the tool works across shared team workflows
- Used AI-assisted development to iterate quickly on logic, troubleshooting, and quality improvements

Automated Login Script & System Administration | MTSU Walker Library
Fall 2023

- Developed batch scripts that streamlined library staff login workflows and reduced setup friction
- Wrote documentation and led hands-on training so staff could adopt the process confidently
- Preserved access controls and permissions while rolling the workflow across multiple departments

Presentation A/V & Exhibit Technology | MTSU Walker Library
Fall 2022 - Winter 2024

- Maintained cameras, microphones, projectors, and display technology for presentations and events
- Set up exhibit technology and interactive components to improve educational engagement
- Created user guides and collaborated with staff on technical solutions for artifact presentation
